

**Join Us!** By engaging your baby, toddler or preschooler in music classes early on, you will be taking the first step toward bonding and enriching your family's life through active music-making. You will also nurture your child's musical aptitude at a time unparalleled in importance in his/her musical development.

**Children are naturally drawn to music** which will make your time in Musikgarten classes both fun and beneficial. Activities include bouncing songs, rocking songs, finger plays, body awareness games, dances, instrumental play, all of which are age appropriate and stimulate the brain, foster physical development, and cultivate listening skills.

**Musikgarten involves the whole family!** In addition to attending classes with your child(ren), you will receive a wonderful CD full of fun songs to sing, beautiful lullabies to rock with, lively melodies for bouncing and dancing, and instrumental pieces for playing rhythm instruments to. You will also receive specialized instruments (manipulatives for preschool students), and a book to help you as continue the music-making at home.
